The 2006 Harris Interactive College Football Poll is comprised of former players, coaches, administrators and current and former media who have committed to submitting rankings for the top 25 college football teams each week. These panelists were randomly selected from among more than 300 nominations submitted by the 11 Division I-A Conference offices and the independent schools. The panel has been designed to be a statistically valid representation of all 11 Division I-A Conferences and independent institutions. Today, 113 poll participants submitted their top 25 college football team rankings. Panelists have ranked the top 25 teams each Sunday during the 2006 college football season. Last season the 11 Division 1-A Conference Commissioners and Notre Dame Athletics Director Kevin White decided to not accept the Harris Interactive recommendation to apply a standard statistical practice that addresses potential instability, error, or bias associated with unusual ranking patterns. This process remained the same for the 2006 season. Each week Harris Interactive conducts a thorough verification of the results, and the rankings will stand as submitted.

Complete weekly rankings and today's individual panelist team rankings for Dec. 3, and other information about the poll, can be found at www.harrisinteractive.com/bcspoll and www.bcsfootball.org.
