Poll Methodology and Process

The 2008 Harris Interactive College Football Poll is comprised of former players, coaches, administrators and current and former members of the media who have committed to submit rankings for the top 25 college football teams each week. These panelists were randomly selected from among more than 300 nominations submitted by the 11 Division I-A Conference offices and the independent schools. The panel has been designed to be a statistically valid representation of all 11 Division I-A Conferences and independent institutions. Today, 113 poll participants submitted their top 25 college football team rankings.

The 11 Division I-A Conference Commissioners and Notre Dame Athletics Director Jack Swarbrick decided not to accept the Harris Interactive recommendation to apply a standard statistical practice that addresses potential instability, error or bias associated with unusual ranking patterns. This process, which began in 2005, will remain the same for the 2008 season. Each week Harris Interactive will conduct a thorough verification of the results, and the rankings will stand as submitted.

This week's rankings and other information about the poll can be found at www.harrisinteractive.com/bcspoll and www.bcsfootball.org.

About Harris Interactive®

Harris Interactive is a global leader in custom market research. With a long and rich history in multimodal research, powered by our science and technology, we assist clients in achieving business results. Harris Interactive serves clients globally through our North American, European and Asian offices and a network of independent market research firms. For more information, please visit www.harrisinteractive.com.
