Poll Methodology and Process

The 2011 Harris Interactive College Football Poll is comprised of former players, coaches, administrators and current and former members of the media who have committed to submit rankings for the top 25 college football teams each week. These panelists were randomly selected from among more than 300 nominations submitted by the 11 Football Bowl Subdivision (formerly Division I-A) offices and the independent schools. The panel has been designed to be a statistically valid representation of all 11 Football Bowl Subdivision conferences and independent institutions. Today, 115 poll participants submitted their top 25 college football team rankings. Harris Interactive applies a standard statistical practice that allows it to identify potential instability, error or bias associated with unusual ranking patterns. Those rankings that are identified through the analysis are verified to ensure that each panelist's intent is accurately reflected.

This week's rankings and other information about the poll can be found at www.harrisinteractive.com/bcspoll and www.bcsfootball.org.

About Harris Interactive
Harris Interactive is one of the world's leading custom market research firms, leveraging research, technology, and business acumen to transform relevant insight into actionable foresight. Known widely for the Harris Poll and for pioneering innovative research methodologies, Harris offers expertise in a wide range of industries including healthcare, technology, public affairs, energy, telecommunications, financial services, insurance, media, retail, restaurant, and consumer package goods. Serving clients in over 215 countries and territories through our North American and European offices and a network of independent market research firms, Harris specializes in delivering research solutions that help us - and our clients - stay ahead of what's next. For more information, please visit www.harrisinteractive.com.
