**Poll Methodology and Process**

The 2009 Harris Interactive College Football Poll is comprised of former players, coaches, administrators and current and former members of the media who have committed to submit rankings for the top 25 college football teams each week. These panelists were randomly selected from among more than 300 nominations submitted by the 11 Division I-A Conference offices and the independent schools. The panel has been designed to be a statistically valid representation of all 11 Division I-A Conferences and independent institutions. Today, 114 poll participants submitted their top 25 college football team rankings. Harris Interactive applies a standard statistical practice that allows it to identify potential instability, error or bias associated with unusual ranking patterns. Those rankings that are identified through the analysis are verified to ensure that each panelist’s intent is accurately reflected.

This week’s rankings and other information about the poll can be found at [www.harrisinteractive.com/bcspoll](http://www.harrisinteractive.com/bcspoll) and [www.bcsfootball.org](http://www.bcsfootball.org).

**About Harris Interactive®**

Harris Interactive is a global leader in custom market research. With a long and rich history in multimodal research, powered by our science and technology, we assist clients in achieving business results. Harris Interactive serves clients globally through our North American, European and Asian offices and a network of independent market research firms. For more information, please visit [www.harrisinteractive.com](http://www.harrisinteractive.com).
